

HVAC Service Program Eligibility and Requirements

Customer Eligibility

- Applicants must receive residential electric service from Georgia Power and must be the owner of an active Georgia Power account or owner of the home/address where the HVAC service was performed.
- Eligible building types include:
 - ◆ Owner occupied or leased single family detached home
 - ◆ Owner occupied single family attached condominium – single unit
 - ◆ Owner occupied single family attached townhome – single unit
- All services must be performed prior to the submission of the rebate application. To qualify for the rebate, the applicant's HVAC system must have a pre and post assessment completed and entered into the iManifold™ App (iOS or Android) by a licensed heating and cooling contractor who is a member of the Georgia Power Program Contractor network.
- The HVAC system must be at least five (5) years old.
- The applicant may receive a maximum of one (1) HVAC Service Program rebate for each HVAC system every three (3) years.
- The applicant may receive up to three (3) HVAC Service Program rebates per Georgia Power account.
- The HVAC system must have a minimum of five (5) Energy Efficiency Ratio (EER).
- The HVAC system must be residentially rated and between one (1) and five (5) tons.
- During the HVAC Service, the outdoor temperature must be at least 70 degrees fahrenheit.
- The equipment must meet air flow and refrigerant charge requirements as indicated by the post-test iManifold™ report.
- Ductless mini-splits or geothermal systems are not eligible.
- Customer is responsible for all fees incurred by the Program Contractor and must complete all recommended repairs to qualify for the rebate.

Application Requirements

- Applications will be submitted by the Program Contractor who performed the eligible service. Applications must be submitted within 60 days of completion of the service or invoice date.
- Each HVAC Service Program rebate application requires the following supporting documentation:
 - ◆ Contractor Invoice (paid in full or showing a zero balance, itemized sales receipt with date of purchase)
 - ◆ Pre- and post-test iManifold™ Reports
 - ◆ Signed and dated HVAC Service Program Agreement

Please Note: Rebates will be processed approximately six to eight weeks after receipt of an approved rebate application and contractor Invoice. Applications missing any of these submissions are subject to processing delay or rejection.

Other Conditions

- Georgia Power's HVAC Service Program has been approved by the Georgia Power Public Service Commission and may be subject to change or modification, without prior notice, at any time.
- Georgia Power reserves the right to amend or discontinue this program without notice.
- Georgia Power reserves the right to inspect the serviced equipment. Should it be determined that the qualifying service was not performed, contrary to the information contained in the application, the rebate must be repaid to Georgia Power.
